

PARTNERSHIP WITH SOCIAL VALUE UK

ABOUT SOCIAL VALUE UK

Social Value UK is the professional membership body for social value and impact management.

Our vision is a world where organisations are accountable for their impact on people and where decisions are made to improve wellbeing, equality and the environment for everyone.

Our mission is to change the way society accounts for value through principles, practice, people and power. Social Value UK is a Joint Member Network of Social Value International, the global standard-setting organisation for social value and impact management.

WHAT WE DO

Social Value UK develop professional communities to embed the Principles of Social Value into practice. As a member-led organisation we encourage cross-sectoral collaboration to develop thought leadership, deliver world class training and assurance, build a community of professionals and lobby for stronger legislation that promotes wellbeing and equality.

PARTNERSHIP WITH SOCIAL VALUE UK

Social Value UK recognises that to change the way the world accounts for value we cannot, and should not, work alone! Therefore we have created the Partnership model of membership, so that we can work with, and support other organisations with similar goals to ourselves.

Social Value UK has three forms of Partnerships available to members and prospective members:

- 1 Thought Leadership Partner
- 2 Strategic Partner
- 3 Technology Partner

Below is further information about what each of these Partnerships means, and the different ways in which we work with these different types of partners.

THOUGHT LEADERSHIP PARTNERS

Social Value UK convenes our members in various ways, but one of the most successful ways we have of doing this is through the Thought Leadership Groups (TLG's)

Thought Leadership Partners are organisations that either lead, or co-lead, a Social Value Thought Leadership Group. These organisations are experts in the field, and work in collaboration with Social Value UK to lead the TLG and encourage the embedding of the Principles of Social Value across their sector or field.

STRATEGIC PARTNERS

Strategic Partners are organisations that Social Value UK works with in order to further our mission and achieve our vision. These organisations range from campaigning groups to consultancies, sector specific support organisations to standard setting bodies – however they all have 1 thing in common, a wish to reduce inequality, protect the environment and improve wellbeing.

TECHNOLOGY PARTNERS

Technology Partners are organisations who have created, or manage, technology that support with Social Value Measurement and Management. We work with these partners to help support other organisations in their measurement and management of social value.

All our Technology Partners have achieved, or are working towards achieving, Software Accreditation (Awarded by Social Value International).

HOW TO BECOME A PARTNER

Organisations become Partners of Social Value UK by:

- 1 Speaking with the Membership and Networks Manager, to explain how and why your organisation can support Social Value UK in our mission.
- 2 Agreeing to key deliverables or outputs that will be achieved through the Partnership
- 3 Signing an MOU or Partnership Agreement

WANT TO FIND OUT MORE?

If you are keen to become a Partner of Social Value and work with us to change the way the world accounts for value, please get in touch with our Membership and Networks Manager, Becca Harvey at Rebecca.harvey@socialvalueuk.org
